PERSONAL SKILLS

I am an Orthopaedic Surgeon with a special interest in Knee Surgery. In particular, partial knee resurfacing, knee joint revision and Knee Sports Medicine.

My Knee Fellowship allowed me to work and actively operate with Prof. Sergio Romagnoli at Galeazzi Hospital, Milan. This valuable fellowship experience enabled me to improve my knowledge and skills in Knee Surgery.

My consultant appointment as Orthopaedic Knee surgeon and knee specialist in Cernusco S/N – Melegnano, led to my offering a full knee service including arthroscopies, Anterior Cruciate Ligament Reconstructions, Partial Knee Surgery (Unicompartmental Knee Prosthesis), Total Knee Prosthesis and Revision Knee Surgery.

As my practice developed and became more specialized towards complex knees, I accepted the Consultant knee surgery position in 2020 at ICCS (Istituto Clinico Città Studi) in Milan, with my Chief Nicolò Castelnuovo. The department is a tertiary referral centre for complex and difficult knees.

I was invited to join the consultant staff at King Edward VIIIth's Hospital as a Consultant Knee

Surgeon working alongside along Prof. David Barrett and Prof. Justin Cobb. I practiced at KEVII Hospital till July 2024.

I have an active interest in research and academic knee surgery as well as the treatment of complex knee conditions.

I have been a member of the regular review board for knee surgery at King Edward VII's Hospital, where all cases are discussed and evaluated.

I am actually an Academic Visitor at Imperial College London at the Department of Mechanical Engineering where I am developing some projects about knee prosthetic design.

Language skills: My mother tongue is Italian, I have practised professionally in England and studied under the ERAMUS programme in France, therefore I am fluent in both French and English.
